Addressing the students and parents at the school's

annual day celebration titled 'Abhyakhti: Expression of Life' at Gurajada Kalkathetram here on Saturday, Mr. Mallikarjuna said that parents and teachers should teach chil-

U.S. universities continue to charm students aspiring to study abroad

The Hindu Bureau
VIJAYAWADA

The United States of America continues to be the preferred destination for students looking for universities abroad to pursue higher education.

A good number of parents, eager to explore the possibility of sending their wards to overseas universities and colleges for higher education, formed the crowd at The Hindu Education Fair, held in Vijayawada on Saturday.

Students, many of them with their parents in tow, lapped up information at the stalls put up by representatives of educational consultants and allied services.

A large number of them made enquiries about American universities that specialise in courses such as computer science, data

science, cybersecurity and other related areas, despite their high fee structure.

"My son, who is currently pursuing a computer engineering course, has scored over 85% in his 7th semester. He plans to go to the U.S. and pursue an MS in cybersecurity or data science. I want him to choose a university where he can develop his talent," said Ashok Kumar S., a resident of Machilipatnam, where he owns a hotel.

When asked why the U.S. in specific, he points to the fact that the country has top universities and that his son could make good money there.

P. Annapurna is eager to see her daughter migrate to the U.S. to pursue M.D. in data science, as she sees the country with high employment rate.

"But the high fees is a dampener," she says.

GVMC should seek funds from State govt. for G-20 meet works: corporator

The Hindu Bureau
VISAKHAPATNAM

Corporator of Ward 22 and Jana Sena Party (JSP) leader P.L.V.N. Murthy has demanded that the Greater Visakhapatnam Municipal Corporation (GVMC) seek funds from the State Government and take up development works in the city ahead of G-20 working group committee meeting scheduled on March 28 and 29, instead of spending its money as part of beautification.

Addressing a press conference here on Friday, Mr. Murthy said that the GVMC has proposed to take up development works worth around ₹150 crore under the civic body limits for the two-day global event and has questioned the need for the civic body to bear

the burden by spending its own money, when it is already facing financial burden.

Pending dues

"The State Government has failed to give ₹20 lakh to each sachivalayam as part of Gadapa Gadapa ki Mana Prabhutvam. As part of SC-ST sub plan works, about ₹45 crore government was to be given by the government, but it didn't. GVMC had to bear ₹14 crore, which was supposed to be given by the government as part of special development funds. So far, the State Government has also not given any funds for the CITIS project. Why should we believe that the government would release the ₹150 crore?" the corporator questioned.
